The following field should contain an explanation if the Applicant organization is delinquent on any Federal Debt. Maximum number of characters that can be entered is 4,000. Try and avoid extra spaces and carriage returns to maximize the availability of space.

CERTIFICATIONS**1. CERTIFICATION REGARDING LOBBYING**

Title 31, United States Code, Section 1352, entitled "Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions," generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non-appropriated) funds. These requirements apply to grants and cooperative agreements EXCEEDING \$100,000 in total costs (45 CFR Part 93). By signing and submitting this application, the applicant is providing certification set out in Appendix A to 45 CFR Part 93.

2. CERTIFICATION REGARDING PROGRAM FRAUD CIVIL REMEDIES ACT (PFCRA)

The authorized official signing for the applicant organization certifies that the statements herein are true, complete, and accurate to the best of his or her knowledge, and that he or she is aware that any false, fictitious, or fraudulent statements or claims may subject him or her to criminal, civil, or administrative penalties. The official signing agrees that the applicant organization will comply with the HHS terms and conditions of award if a grant is awarded as a result of this application.

3. CERTIFICATION REGARDING ENVIRONMENTAL TOBACCO SMOKE

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

The authorized official signing for the applicant organization certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act. The applicant organization agrees that it will require that the language of this certification be included in any sub-awards which contain provisions for children's services and that all sub-recipients shall certify accordingly.

HHS strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the HHS mission to protect and advance the physical and mental health of the American people.

Project Abstract

Project Title: Kansas Health Information Exchange Program

State: Kansas

Applicant Name: Kansas Department of Health and Environment

Address: 1000 SW Jackson St., Ste. 540, Topeka, KS 66612-1368

Contact: Roderick L. Bremby, Secretary

Contact Phone Numbers: 785.296.0461 (voice), 785.368.6368 (fax)

E-Mail Address: RBremby@kdheks.gov

Web Site Address: www.kdheks.gov

Congressional Districts: This project includes all four Kansas Congressional Districts

State HIE Status: As of September 2009, only a few health information exchange efforts exist within the state of Kansas. The more mature of these exchanges are able to share limited data sets with participating providers. While most of Kansas' healthcare providers are dependent upon paper records, statewide immunization, chronic disease, and other registries are available electronically.

Project Summary:

The Kansas Department of Health and Environment (KDHE), the state designee for health information technology, will facilitate the creation of strategic and operational plans for a statewide infrastructure for health information exchange (HIE). These plans will act as a blue print to a contemplated not-for-profit organization responsible for the deployment and operation of the Kansas HIE. To guide the planning and implementation process, KDHE has convened the e-Health Advisory Council to provide broad based stakeholders representation from thirty-three plus health care organizations.

The primary goal of this health information exchange is to enable healthcare stakeholders to share data for coordinating patient care and to support public entities in achieving their population health goals. More specifically, this process will enable stakeholders to focus on developing medical homes for Kansans and on utilizing the chronic care model to address identified disease conditions.

To enable this statewide interoperability of healthcare data, it is necessary to align a number of concurrent projects through a coordinated approach. This coordinated approach requires the participation of key state health information technology project leaders in an e-Health Advisory Steering Committee. This steering committee includes the domain chairs from each of the e-Health Advisory Council workgroups, as well as representatives from Kansas Medicaid, the Regional Extension Center, and a Quality Improvement Consortium.

The measurement of project outcomes is critical to the success of this highly visible public and private partnership. Over the course of this four-year project, KDHE will measure and publicly report quarterly on a number of key measures including: 1) The increase in the number of stakeholders accessing the exchange for the purpose of coordinating patient care; 2) The increase in the number of Kansans with their care coordinated through a medical home; and 3) The increase in the number of Kansans participating in chronic disease management programs.

Identified products of this project include a state strategic health information technology plan, a statewide operation plan for health information exchange, and the public reporting of key measures identifying the benefits of this project to Kansas stakeholders.

EXECUTIVE ORDER 12372

Effective September 30, 1983, Executive Order 12372 (Intergovernmental Review of Federal Programs) directed OMB to abolish OMB Circular A-95 and establish a new process for consulting with State and local elected officials on proposed Federal financial assistance. The Department of Health and Human Services implemented the Executive Order through regulations at 45 CFR Part 100 (Inter-governmental Review of Department of Health and Human Services Programs and Activities). The objectives of the Executive Order are to (1) increase State flexibility to design a consultation process and select the programs it wishes to review, (2) increase the ability of State and local elected officials to influence Federal decisions and (3) compel Federal officials to be responsive to State concerns, or explain the reasons.

The regulations at 45 CFR Part 100 were published in *Federal Register* on June 24, 1983, along with a notice identifying the

Department's programs that are subject to the provisions of Executive Order 12372. Information regarding PHS programs subject to Executive Order 12372 is also available from the appropriate awarding office.

States participating in this program establish State Single Points of Contact (SPOCs) to coordinate and manage the review and comment on proposed Federal financial assistance. Applicants should contact the Governor's office for information regarding the SPOC, programs selected for review, and the consultation (review) process designed by their State.

Applicants are to certify on the face page of the SF-424 (attached) whether the request is for a program covered under Executive Order 12372 and, where appropriate, whether the State has been given an opportunity to comment.
